JAMES THOMPSON.

THE SYMPTOMS OF LIVER COMPLAINT are weakness and pain in the right side, and soreness upon touch immediately under the inferior ribs; inability to lie upon the left side, or, if at all, a dragging sensation is produced, which seriously affects respiration, causing very often a troublesome cough. Together with these symptoms, we perceive a coated tongue, acidity of the stomach, deficiency of perspiration, and sometimes a sympathetic pain in the shoulder, with a great disposition to sleep and depression of spirits, and some times sores in the mouth or throat. These symptoms, if persisted to continue, will eventually produce Consumption, the most baneful of all diseases.

THE SYMPTOMS OF DYSPEPSIA are various, these affecting the stomach are nausea, heart-burn, loss of appetite, disgust for food, sometimes a depressed appetite, sense of fullness or weight in the stomach, sinking or fluttering in the pit of the stomach, sour eructations, coated tongue, acidity of the stomach, hurried and difficult breathing, &c., &c.

The sympathetic effects are very diversified—head, red face or weakness through the limbs, swimming of the head, sudden flashes of heat, &c.

The use of the Bitters should be persevered in until every symptom of dyspepsia has vanished, and health is entirely restored.

NERVOUS DEBILITY generally accompanies Liver Complaint or dyspepsia, and is frequently produced by continued constipation. The symptoms are fluttering at the heart, a choking sensation when going to sleep, dots or webs before the sight, fever and dull pain in the head, constant imaginations of evil, and great depression of spirits. Debility of the Nervous system should always be dreaded, as of itself laying the body open to an attack of any epidemic. Persons afflicted with this disease are generally annoyed by recurrences of no account, which would not, if the state of health were healthy, be any cause for alarm. This Bitters will remove the unpleasant effects of this distressing affliction, in which duty is discharged.

MARASMOUS—The lives of thousands of infants and children are annually lost by this disease. The flesh of the little innocents gradually wastes away, until they are reduced to mere skeletons, then they die. This disease is caused by the liver being diseased, and the blood being impure. Mothers, do not doubt this if you would save your child; in two or three days you will see a marked improvement.

CHANCE OF LIFE—This is truly a very critical time in a woman's life. If she survives this period, and retains her health, she will live to a ripe old age; on the contrary, if she is attending this period with too much for her physical strength, she will be a weak, nervous, and sickly, her constitution is undermined, her nervous energy is prostrated or entirely gone, and she drags out her few remaining years in misery and unhealthiness. At this period, more than at any other, she needs a good tonic, that can restore her health, and the weakness may be strengthened and apply perfectly. This Bitters does this. It is a tonic, and it is a tonic, more beneficial than the situation of HOOFLAND'S GERMAN BITTERS.

NERVOUS DEBILITY is a well-established fact that fully one-half of the female portion of our population are victims in the enjoyment of good health, or to use their own expression, "never feel well." They are afflicted, devoid of all energy, except only nervous, and have no appetite. To this class of females these Bitters are especially recommended. Their peculiar tonic and invigorating properties render them invaluable in such cases. The patient should immediately discontinue all food and drink, and take only water, and resort to the use of the Bitters, the inevitable result of which will be a strong and hearty constitution, a disappearance of all nervousness, a good appetite, and a perfect restoration to health.

Some elegant months since I was a severe sufferer from dyspepsia. I was not only unable to take plain food without suffering great distress, but had become so debilitated as to be almost unable to carry out any business of my kind.

After trying a variety of so-called remedies, all of which proved worthless, I was induced, at the suggestion of a medical friend, to use Hoofland's German Bitters. I accordingly purchased six bottles, which were taken in accordance with your directions.

The result was complete removal of all distressing symptoms after using, or drinking, and a full restoration of strength, so that I now eat all ordinary food with impunity, and am able to attend to all the active duties of a large and arduous business as well as at any period of my life, the good effects of the Bitters were manifested before I had taken the first bottle.

I have also used it in my family with the happiest results, and take great pleasure in recommending it to that many others who have been benefited by it. It is a great tonic, and it is a tonic, more beneficial than the situation of HOOFLAND'S GERMAN BITTERS.

For many years I suffered from extreme debility of the system, caused, no doubt, by derangement of my stomach and liver. The Bitters cured me, and my health was almost restored, and I was able to leave my bed.

I had the services of two of the most distinguished physicians of this city, but, notwithstanding their skill, I was unable to obtain any relief. I was finally told by the physician I had to keep me quiet and rest, and that all that could be done was to keep me as quiet and rest as possible.

At this stage of my disease, I was told by a friend that HOOFLAND'S GERMAN BITTERS had proved very beneficial in cases similar to my own. Thinking that it might probably be of some benefit to me, I sent for a bottle, and used it until I had taken three bottles, when, to the astonishment of all my friends, I began to feel better. My appetite became good, my food was digested, and I was able to leave my bed, and in a short time I was able to walk and to ride on horseback. From this time I gained in health and strength and am now as well as ever I was—happy and strong.
